STATE NEWS.

The curpenters are already at work on repairs and improvements at the Lower Maine Central depot in Lewiston. The repairs are chiefly those of demolition. One side of the old wooden structure that did duty for so manylycars as a passenger station is already open to the weather. All of this building will be torn down except the freight platform, over which a pitched roof will be built. Trucks that ran through this old passenger station where the flower had will be located close to the awaing at the new pageinger station where the flower hed has been. When dill this is done, the hacks will drive in where the baggage room is now and will have abundant room for their convenience. The public will be gratified at these changes and will appreciate them.

A TOILER.

There is scarcely a toiler, however small his carrings, but is able to take out and maintain at least a thorsand dollar policy. Wives and mother who may be left you cannot say how soon, to battle with the selfiseness of the world empty handed, see to it that your husbands do not fall the see to it that your husbands do not fall the see to it that your husbands do not fall the see to it that your husbands do not fall the see to see that the see to the selfished of the see to the selfished of the see to see that he would be seen as the see that the see that the see that you may through the boue faction of life insurance! If the rich those who have the probability of saving something out of the wre ke of fortune, see it a duty to have an asset the functuations of busiless cannot affect how much more is it a duty in those who have nothing beyond the wage return for their daily labor to provide for the cantingencies of that day which cannot be thrust saids but comes to all—the day of death—[Omaha Republican]

General Dow said when they began to
talk prohibition in Maine, they encountered great opposition, but they got the
peoule thoroughly educated on the subject
and then induced them to cast their votes
for legislators who would vote for prohi
bition, and succeeded It is generally said
that prohibition has failed in Maine, but
those who said so knew nothing about the
bate Dr McGlynn responded to the repeated calls and declared that the united

New York, Sept 25. Following is the report of Umpire George L Schuyler, on the eligibility of the Thistle as a competitor in the American's cup race

New York, Sept 25 James D Smith, Esq., Chairman America's Cup Committee of the New York Yacht Club

My reply to the question submitted to me by your committee and Mr Bell, is as follows The clause in the deed of the gift, which requires, tesides the Custom House measurement, a statement of the dimensions of the versel, is intended to convey just the idea of capacity, at the same time without reference o any rule as to racing tonnage, which may be in force at the time the challenge is given. The length of loadwater line is an essential element.

It was furnished by both the General It was furnished by both the Genesta and Galatea and had not been given by the Phistie The committee should have demanded it before making the terms of the match Mr. Bell did, however, furnish the load water line of the Phistie, notwith standing his misapprel ension of the necessity to do so, for reasons as stated by him self that if the information was withheld it would be impossible to determine, with any approach to accuracy, the power of his boat, a reason which proves the necessity of the load water line being a factor in giving the dimensions of a vessel

An epitome of the programmes offered by the seven associations, shows that fourder paced the latter does not in clude the special won by Johnston at Springfield The trotting races called for two lundred and seventy heats and the pating contests for fifty three. The average time made by the trotter in all of their races was a ffaction over 222, and the vacurs a shade under 219%. The average time for the entire circuit was 2 31% Pintoh, as stated above, trotter the fastest heat in the circuit, and "outparing the time made by him in his two races, with that of the other stars, we find that his average of 2 161, is the lowes. Johnston oncur pied second place with 2 17, but it must be remembered that three of his heats were paced to wagon.

As would naturally be supposed, the free-fir all presents the fastes average of any of this series of events, adopted by the stewards of the grand circuit, but all three of the meetings the time made in one or more of the class races was faster.

The following table shows the number of heats crotted, and the average time made in each class.
